

OWI5040FH TYPE

FEATURES

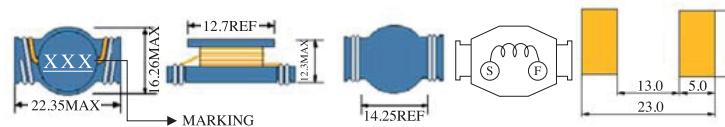

1. Various high power inductors are superior to be high saturation for surface mounting.

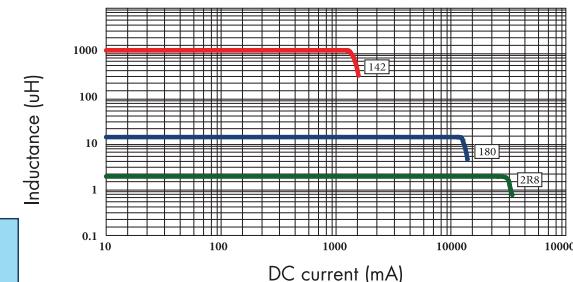

APPLICATIONS

1. Power supply for VTR, OA equipment.
 2. LCD television set, notebook PC.
 3. Portable communication, equipments.
 4. DC/DC converters, etc.

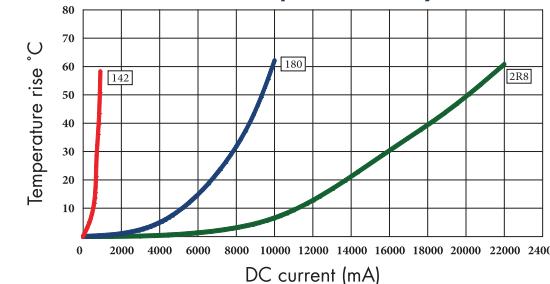

ELECTRICAL CHARACTERISTICS FOR QW15040FH SERIES

QW15040FH Inductance decrease by current

OWI5040FH Temperature rise by current

1. Inductance tested at 0.25V. Tolerance of inductance:
2.8uH~100uH: $\pm 30\%$ (N) 330uH~1400uH: $\pm 20\%$ (M)
 2. DCR test temp. limits 25 °C.
 3. This indicates the value of current when the inductance is 10% lower than its initial value at D.C. superposition or D.C. current.
 4. To load current onto the components under normal ambience, which cause the temp, change as $\Delta t=40^\circ\text{C}$ or more lower current.
 5. Please refer saturated current or the minimum temperature current as standard.
