

# **OWIMD4D08 TYPE**

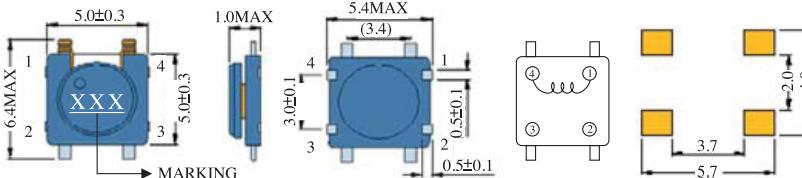

## FEATURES

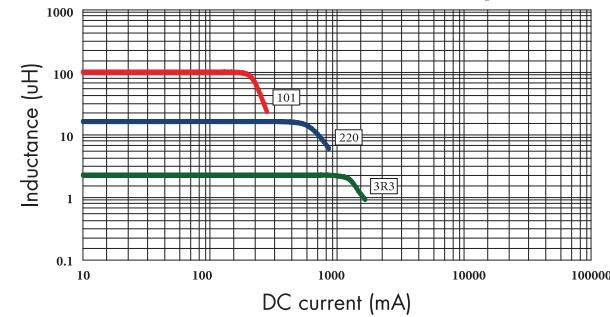

1. LOW Profile (1.0mm max. height) and 6.4mm square.
  2. Various high power inductors are superior to be high saturation for surface mounting.

## APPLICATIONS

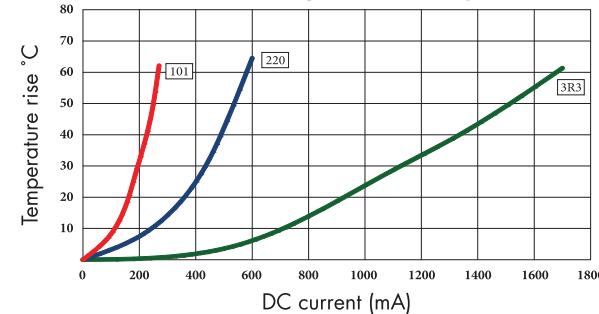

1. Power supply for VTR, OA equipment.
  2. LCD television set, notebook PC.
  3. Portable communication, equipments.
  4. DC/DC converters, etc.

## OWIMP4P08 Inductance decrease by current

OWIMD4D08 Temperature rise by current

1. Inductance tested at 0.25V. Tolerance of inductance:  $\pm 20\%$  (M)
  2. DCR test temp. limits 25 °C.
  3. This indicates the value of current when the inductance is 10% lower than its initial value at D.C. superposition or D.C. current.
  4. To load current onto the components under normal ambience, which cause the temp. change as  $\Delta t=40$  °C or more lower current.
  5. Please refer saturated current or the minimum temperature current as standard.
