

**Subject:** Compliance to REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.

With reference to the capacitor for **Motor and Lighting** we hereby summarize the results of the REACH compliance assessment.

#### **REGISTRATION OF SUBSTANCES according to art. 7.1**

No obligation of registration to the European Chemicals Agency for any substance contained in capacitors applies to ICAR since capacitors do not fulfil the condition art. 7.1.a): *ICAR is a producer of articles not intended to release any substances under normal or reasonably foreseeable conditions of use.*

#### **NOTIFICATION OF SUBSTANCES according to art. 7.2**

No obligation of notification to the European Chemicals Agency for any substance contained in capacitors applies to ICAR since none of the substances identified as Substances of Very High Concern (SVHC) in the Candidate list (<http://echa.europa.eu/web/guest/candidate-list-table>, last update January 15, 2019) is present above 0.1% (w/w).

#### **COMMUNICATION according to art. 33**

In case of inclusion on the Candidate List for authorisation of SVHC contained in an article in a concentration above 0.1% (w/w), ICAR will automatically provide industrial / professional users and distributors with the relevant safety information to allow the safe use of capacitors.

At your disposal for any further clarification, you may need.

Best Regards
